DriveMe - Your Personal Driver for Your Own Vehicle

2) Names of the group members:

Eda ALPARSLAN

Berfin CETINKAYA

Ege Kaan EREN

Ufuk Baran GULER

Duru SOLAKOGLU

3) Supervisor Name:

Ibrahim KORPEOGLU

4) Innovation Expert Name:

Tagmac TOPAL

5) Project abstract :

DriveMe is a mobile platform designed for vehicle owners who need a professional driver to operate their own cars. It serves as a reliable solution for various real-life situations, such as when a user feels too fatigued to drive, has consumed alcohol, is recovering from a medical procedure, or simply prefers not to drive in heavy traffic. The app connects passengers with background-verified drivers who meet them at their location. By focusing on safety and convenience, DriveMe ensures that both the owner and their vehicle arrive home securely, offering peace of mind through real-time tracking and a trusted community of rated drivers.
